The CLASE Project

Shallow Dive
Climate surveys were sent out to students in November 2015. These surveys explored incidence and prevalence of victimization and perpetration, evaluation of school efforts to address intimate interpersonal violence, and examine post-assault behavior of students. Data will be released Spring 2017.

Medium Dive
Focus groups will be conducted on our campus to gain additional insight into the goals, concerns, attitudes, and process undertaken by professionals working with victims and accused students. These professionals may include victim service professionals, campus law enforcement, faculty, and staff.

Deep Dive
A multi-year cohort study of sexual assault victims and a comparison group of students on the UT Austin campus will be implemented to assess the impact of sexual assault on academic, health, and quality of life variables.

What's Next?

It's On Us Partnership
UT Austin has been selected for the Campus Innovation Program with It's On Us to improve sexual assault prevention and student involvement on campus.

- Provide Haven and Haven Plus online training for all incoming students-undergraduate, graduate, and transfer students.
- In collaboration with Student Affairs, implement a Peer Advocacy Program.
- Trained student peers will provide survivors of interpersonal violence confidential support, advocacy, resources, and reporting options.
- Hire Confidential Advocates in the Title IX Office and Student Emergency Services to act as a confidential resource for students.
- Implement new, innovative training strategies for faculty, staff and students.
